

# IASP AND HARENA DATA HAVE PARTNERED TO MAKE ESPORTS EASY

To take the pressure off the schools and to ensure that the IASP's initial foray into esports is a positive one, we have partnered with Indiana based HARENA DATA to develop and manage our esports program.

To ensure that schools have an excellent introduction to esports and get the help they need to be successful, HARENA will provide operational and back-end support for IASP's Esports Bowl. HARENA will offer a wide range of support to make sure schools do not waste their time trying to understand complex systems and how to manage a new website. **OUR GOAL IS TO MAKE THIS AS EASY AS POSSIBLE.**

With this Turn-key solution, HARENA notifies students about their matches and takes care of all the administration in the Esports Bowl. Let's face it, you guys do enough.
